PROFILE

Dedicated and a passionate React JS web developer. Experienced with development, API integration with React and Next.js. I focus on building the web applications with web development best practices for the company they need to thrive.

EXPERIENCE

- **NIXAAM LLC**   (*May 2022 – Present*)

A healthcare website consists of doctor and assistant portal. React JS theme with AntD is used in front-end while backend is supported with firebase. Client was satisfied after the deployment of product.

- **HNH TECH SOLUTIONS**   (*Jun 2021 – Apr 2022*)

An online learning platform with teacher and student dashboard designed with ReactJS. A positive feedback by the client.

Another teaching platform designed in which Next JS was utilized for SEO optimization and redux for getting all data at once in landing page which is dynamically added by Admin. Client satisfied with application performance.

Projects

Social Media Memories-App (MERN application)
Realtime-Chat-App with (React, Nodejs and Socket.io)

EDUCATION

BSSE SOFTWARE ENGINEERING
UNIVERSITY OF KARACHI (UBIT)   (*JAN 2018 – DEC 2021*)
